Presently, about 1038-million populations in more than 585 districts/reporting units has been covered under the revised strategy. The Project districts have reported cure rate of more than 85%. Till date, the RNTCP has placed more than 44.5 lac patients, on treatment averting more than 7.5 lac death. The Government of India is implementing the Pulse Polio Immunization Programme in the country with support from WHO and donor agencies for eradication of polio. Under this programme, national and sub-national (in high-risk States/districts) rounds are conducted for giving polio vaccine to children between 0-5 years of age. Considerable progress has been achieved. The number of polio cases declined from 1600 in 2002 to 225 in 2003,134 in 2004 and 23 cases in 2005 (as on 21st July,2005).
